Oxford United football club is a massive part of the community and has been for many years. Building a new stadium here is a step in the right direction for both club and community. It will provide numerous jobs opportunities and benefits. It will be in a better location for travel away supporters on the train and also supporters of the club. It will mean oufc will have a more stable place to call home and will also have a great impact on local business such a restaurants and pubs. There will be many benefits to both Oxford United football club and the local community
