| Comments | The catastrophic impact on traffic, parking, movement around Kidlington and the surrounding area for residents and visitors will be immense. There is absolutely no way that those attending matches will abide by the notional plan to use public transport, the resources for which are in themselves sub-sufficient, and will inevitably resort to parking around the housing estates closest to the proposed stadium, blocking access for residents and their visitors and causing mass disruption to day-to-day life in the village. This is in addition to the mass destruction of critical greenbelt land, natural habitats and sustaining environments for wildlife. In short, there are insufficient resources to effectively support the proposal, the environmental impact of which will be huge. |
