I'm writing to support the planning application by Oxford United for a new stadium on the piece of land known as the triangle. I believe that the opportunity of a state of the art stadium is too important to turn down. I further believe that the building of such will be of value to the area. I understand that the carbon offsetting planned in building the stadium will be truly world class, and that the design will be both impressive and discrete visually. I believe that the location will help to reduce the use of personal vehicles. Perhaps most importantly of all, I understand that OUFC have pledged to support the badly neglected playing fields known as Stratfield Brake, and that this can only benefit the teams that use these.

I sincerely hope that the opportunity to build a genuinely world class - and world-leading stadium in Oxfordshire isn't passed by.
