I am writing in support of Oxford United's new stadium proposal at The Triangle.

Oxford United's proposed eco-friendly stadium in Kidlington is a commendable initiative, showcasing the club's commitment to sustainability. Embracing innovation and environmental consciousness, the new stadium will be one of a kind in this country! I also believe this project has the potential to generate valuable employment opportunities, contributing positively to the local economy. The enjoyment this will bring to the generations of people that will benefit from it cannot be understated. This is a once in a lifetime opportunity for a world class venue for the great people of Oxfordshire.

The new stadium at The Triangle is also not just a venue; it's a lifeline for the county's only professional sports team. To approve this facility is crucial for preserving the heritage and spirit of Oxford United, ensuring the community retains its cherished football club. Beyond bricks and mortar, the stadium becomes a symbol of unity, resilience, and local pride, safeguarding the heartbeat of Oxfordshire's sporting identity.

Do the right thing, approve the application and get it built!
