Comments	As a resident living close to Banbury who travels to matches by car the possibility of being able to travel in on the train would be brilliant and even during the warmer weather to cycle to matches.
	I know many supporters who want to embrace the environmental benefits this stadium will bring.

I urge the Council to agree this development quickly and look at areas like Brighton and Brentford to see the clear benefits to the community that a new stadium will bring.

A City like Oxford should have a world class venue which this will bring and do not underestimate how important it is to the future of Oufc.
