Type of Comment	Objection	
Туре	neighbour	
Comments	 Viewing the detailed plans has not given us any reassurance around these plans - in fact the opposite, so I, my husband and two children (13 and 10) oppose them. Green belts were created for a very good reason and this reason is all the more needed in these times of climate emergency. There is no evidence of the 'special circumstances' needed to fill in a Green belt. We remain unconvinced regarding the plans' effect on wildlife: the stadium construction will clearly destroy valuable biodiverse wildlife habitat and even once it is built and mature the level of biodiversity will be nothing like previously. Again - this is a climate emergency and retaining what biodiversity we have is crucial. As local residents we are dreading the chaos from road closures and traffic congestion which would effectively cut us off from most of our main transport routes at certain times. A commercial development of this size and scale is contrary to the Local Plan, as well as planning policy for Green belt sites.
