This application has to be supported as this iconic football club has to have this once in a lifetime chance of having a world class stadium that Oxfordshire can be justifiably proud of. Both my Husband and son have supported this club for absolutely years between them with my own father who is no longer here playing and conducting the Witney Town band on the old Manor Ground and he would be mortified if he thought this football club had no home to call itself. But, on top of this as a resident of Oxfordshire I have seen the University power on and build it seems whatever but when it comes to looking after and engaging in investment for its own 700k residents in enterprise and entertainment its seems a lot further down the list. The young people in the county need to be able to shout from the rooftops and state to other UK towns and cities that Oxfordshire has stepped forward and has led the way for once. Make a decision for once that shows that Oxfordshire is the place for progression and that we show our love for our national sport added with huge benefits to not only the match days but to our young up and coming generations.
