Comments	This is a huge commercial development totally incompatible with the area. It is hugely damaging to the environment and to the wildlife of the area. The traffic chaos it would cause on a regular basis is unacceptable. The suggestion that roads could be closed is ridiculous and damaging to existing businesses. Despite the frankly ridiculous claims that fans will arrive by public transport, the facts are that a huge number will only ever consider arriving in private cars and will not use any car park that has to be paid for so will inevitably park in the streets of Kidlington causing unacceptable congestion, disruption and inconvenience. There will be massive noise pollution and light pollution. This planning application must be rejected.
