Comments	 Effects on traffic in local area, including Kidlington, North Oxford, Oxford North & planned new housing between N Oxford & Kidlington on match days & when Conference Centre being used. Also effect on major roads accessing the stadium. Unrealistic to close Oxford Road on match days or to build a pedestrian bridge for fans across Oxford Rd and the railway. No dedicated car parking despite most fans accessing Kassim stadium by car. No new cycle routes or footpaths have been built between N Oxford and Parkway Railway station despite the railway station opening in 2015 and in spite of the death of one cyclist. Contrary to Local Plan & Green Belt planning policy. Stadium would remove one of the last bits of green space between Oxford & Kidlington.
