I'm fully supportive of the proposal. It will provide a much more accessible location than Oxford Utd current have, via existing public transport infrastructure, and create a fantastic new community asset. I'm not currently a regular matchday fan due to the awkwardness of getting to the current location in Greater Leys but would expect to attend on a much more regular basis if the move went ahead. The thought of Oxford Utd becoming homeless from 2026 and having to play games at a far-flung location outside of the County would be such a shame and risk the long term future of the City's only fully professional football club. I do hope you will support the signing of the lease to lead the way to the development of this fantastic community asset and securing a long-term future for the football club. They have provided so many great moments, it would be sad to think these might come to an end.
