I am a 67 year old Oxford United fan of 48 years. I feel I must write in support of the clubs application for an amazing state of the art Stadium.

To build a totally green stadium that will blend into the landscape and have benefits for the community and Oxfordshire as a whole.

At the moment our stadium is in among a housing area nowhere near a station and this would give us a stadium closer to a station and make it a much greener place to come to. I also love that it will be a hub for the local community, young people, provide jobs, conference facilities etc.

The stadium will be surrounded by trees whereas the land is currently unused scrubland and eyesore.

I am so proud of our club for wanting to build a green , modern , stadium which is line with local and national policy on sustainable transport, build and operation.

Please support the plans so that I will be able to continue to support my club and be proud for many years to come

Thank you for your time
