Comments	I have been an Oxford United supporter for over thirty years. My football club needs the opportunity to move to a ground that they own, can be the centre of a community and in an area where it can support local bussinesses. The increase in revenue on matchdays to the local area would be a great benefit, especially for hospitality. I understand there are concerns and issues for local residents, but if the right preventions are put in place, such as parking restrictions on residental roads and clear communication from club of big mathces where potentially the road could be closed for traffic management, there should be no problems. Examples where this all works are places like Derby County and Coventry City, where there are designated car parks for fans and then roads closed just after kick off for fan safety. The club should be backed by the local council to find a new home, as there is a very high potential of the city having at least a Championship club. Without this new stadium Oxford United would cease to exist and that breaks my heart along with every other Oxford United	
	fan, so please do what is best and allow Oxford to build their new ground at the triangle.
