Comments	The choice of stratfieldbrake for a football stadium is the worst imaginable for residents particularly in Gosford and Kidlington in general and for residents commuting to Oxford who fill suffer from regular road closures, diversions and traffic jams. Considering the impact of this on the environment (noise, air pollution, loss of green belt) as well as the parking problems such as resident parking restrictions I strongly object to the building of a stadium and a hotel complex on this site. I also question the need for moving the stadium here when Kassam stadium is still available.
