Comments	I wish to strongly object to this planning proposal on the following grounds: 1. I don't believe that the exceptional circumstances necessary to build on a green field site have been demonstrated. 2. Now, more than ever, we need to preserve nature sites and conserve the wildlife, plants and trees that flourish in such sites. This proposal will destroy a vital 'green lung' which provides a natural break between Oxford and Kidlington. 3. The proposal will create a huge amount of extra traffic in an area already congested with traffic and about to be further overloaded when Oxford North development is finished. Apart from the physical congestion this extra traffic will add further to the air pollution in the area. 4. This proposal has serious implications for highway safety with thousands of people crossing roads to get to the station and to bus stops and with many cars entering and exiting the new site.
