As a primary school teacher in the Kidlington area, the children (both boys and girls) are extremely enthusiastic about the potential stadium and facilities. A large number of them have discussed going to games once it is opened and, potentially, having access to better sport facilities on offer than there currently are in the village. The children who write the school newpaper have even included an article in that, balancing the positive and negative effects. I hope the stadium is approved as it would positively impact the future generation on the local area, which currently lacks in this type of facility.
