Comments	Im a life long fan of Oxford united and wouldn't like to see the club go under due to local issues that can be minimised by proper planning. This stadium proposal falls outside of the	

issues that can be minimised by proper planning. This stadium proposal falls outside of the town of Kiddlington and has good transport links on the doorstep which should massively minimise disruption to the wider community. Traffic will increase approximately 24 times a year, divided into Weekends and weekdays which will be negligible over the course of a year. It is my opinion that Oxford city council have a duty to ensure the clubs future.
