I would be in support of a new stadium for Oxford United but only in a suitable location. I don't think the triangle location is the right location for any type of stadium. The land would be more suited to low cost housing council sponsored. Very soon the triangle land will be surrounded with new private residential housing when the proposed housing developments are complete. It doesn't seem right to have a stadium that will be very overbearing in size in amongst residential properties. I think the council should offer OUFC land in a more appropriate location. I'm sure they have alternatives.
