This is a defining moment not just for oxford United but all of oxford itself.

Having been a supporter for over 50 years I have seen what football means to people, it instills a sense of community, belonging, friendships are made that endure all through a love of football.

This may sound melodramatic but it is a fact.

The proposed new stadium is a massive chance for so many new friendships to be made, I can understand residents reservations regarding traffic will I'm sure be addressed, and not

Without the stadium planning going ahead I feel this could sound the death knell for our beloved football club, so I urge you to vote yes.
