I would like to add my support for planning application. This is the only opportunity to secure a future for Oxford United, the only professional football team in the county. The plan for the stadium to be eco-friendly by being carbon neutral and all electric shows its commitment to the environment. And with improved transport links to the area, and a vastly reduced car count on match days compared to the current stadium, this is a chance to not only secure the future of a club that is a very important part of the local community, but also to build an innovative green stadium, and provide a boost to the local economy
