Comments	the Cherwell District area Oxford United and i fell in The inspiration and enthu holder, has enabled me to life to take a break from y Through hard work and d Oxfordshire to Referee on have been a FIFA match of any doubt because of wat So why am i telling you th young people and allow th massive opportunity will be existence of our football of the Triangle is an integral people in the county to had difficult decision to make permission to build the ne aspirations, that you have	for the first 55 years of my life of which the final ten years were in (Deddington). When i was twelve my father took me to watch olve with the team having been football mad from a younger age. Is as that infused me then and still does now, as a season ticket of establish a second 'career' in football. I took a big decision in my watching United to peruse a career as a Referee in Oxfordshire. etermination i went to become one of only three people from the county to official. I did this because of a love of football which was without to befind and being inspired by Oxford United. This? because without a vibrant local Football League team to inspire hem to realise their potential and to succeed in sport or life goals, a be lost to detriment of the quality of life in the county. The very club/team relies on a business model whereby the new stadium at part to offer the the current and future generations of young ave an opportunity the like of which I had. I know that you have a and that others will take a different view to granting planning ew stadium, but for the sake of our young people and their extended to be a stadium to be built.
