Comments	The triangle is a ridiculous choice for a football stadium which will not only reduce the green space around Kidlington but will bring unnecessary traffic problems which can only lead to more tailbacks and accidents around the Kidlington area. Also the Kidlington area which you are supposed to be making better for the council tax paying residents will suffer unimaginable parking problems on match days, if you need evidence of this have a ride around the Blackbird Leys area on match days and talk to some of the people that have to put up with the selfish and obstructive parking. Also with the amount of proposed plans for development around Begbroke, Yarnton, Watereaton and north oxford golf course the traffic issues will bring Kidlington to an absolute standstill on matchdays when these developments are in place. I find it unbelievable the triangle is even being considered as a possible venue for a football stadium its becoming quite a joke that its reached this far.
