Comments	I object very strongly to the proposed stadium build. It will destroy a very important part of the green belt which houses much wildlife. I understand that the proposed stadium plans, which are large scale, go against the Local Plan and planning policy for green belt sites. It is shocking that the proposal has even got this far given this fact. The road closures will cause a huge amount of disruption to an already very busy area of traffic networks. There are already so many extra houses being built that car use is going to go up in this area in any case, so additional traffic on match days, will make it almost impossible to get around.
