Comment for planning application 24/00539/F

uses including for conferences, exhibitions, education, and other events, club shop, public restaurant, bar, health and wellbeing facility/clinic, and gym (Use Class CJ), external concourse/fan-zone, car and cycle parking, access and highway works, utilities, public realm, landscaping and all associated and ancillary works and structures Case Officer Laura Bell Organisation neighbour Istrongly object to the construction of the Oxford United stadium and related buildings and businesses near the Kidlington Roundabout. We are close neighbours to the site and have major concerns about the traffic and related noise and pollution, parking congestion, road closures, threat to nature and green spaces, and character of our neighbourhood. First, the traffic in our area is already horrendous. It takes half an hour to the CiV centre or towards Kidlington at rush hour - even though these are distances of 2 miles or less. This is already being exacerbated by the construction of hundreds of new homes all around us. On game days, this will be multiple times worse and the residents of this area wills truggle to take care of basic activities, e.g. going to the supermarket, taking our children to activities, etc. The noise and pollution from this extra traffic will be horrible, and made worse by the destruction (already ongoing) of precious green space. And in case of emergencies, it is unclear how emergency services will be able port. Their or public tronsport, they only 'aim' to and have no clear plan for making this happen. There are no easy transport links from the main fan base in East Oxford, and there is ample parking at nearby park and rides, thus disincentivising anyone from travelling by train or public transport, they only 'aim' to and have no clear plan for making this hapaper. We are close neighbours to the site and have major concerns about the traffic and related noise and pollution, parking congestion, road closures, threat to nature and green spaces, and character of our neighbourhood. First, the traffic in our area is already horrendous. It takes half an hour to drive to the City Centre or towards Kidlington at rush hour - even though these are distances of 2 miles or less. This is already being exacerbated by the construction of hundreds of new homes all around us. On game days, this will be multiple times worse and the residents of this area will struggle to take care of basic activities, e.g. going to the supermarket, taking our children to activities, etc. The noise and pollution from this extra traffic will be horrible, and made worse by the destruction (already ongoing) of precious green space. And in case of emergencies, it is unclear how emergency services will be able to quickly reach our area. Second, while the Club states that they 'aim' to have people travel by train or public transport, they only 'aim' to and have no clear plan for making this happen. There are no easy transport links from the main fan base in East OXford, and there is ample parking at nearby park and rides, thus disincentivising anyone from travelling by train or bus. On top of that, train prices are hugely expensive - people will opt for cars as a cheaper option. Third, the road closures that are planned on game days will severely restrict access and liveability for local residents. In particular, disabled people - including one of my family members - will be struck at home on most game days, whichi	Proposal	uses including for conferences, exhibitions, education, and other events, club shop, public restaurant, bar, health and wellbeing facility/clinic, and gym (Use Class E/Sui Generis), hotel (Use Class C1), external concourse/fan-zone, car and cycle parking, access and highway works, utilities, public realm, landscaping and all associated and ancillary works and
