I have been supporting Oxford Utd for 45+ years. In that time I have made many friends and met many acquaintances from all walks of life, from CEO's of large organisations to the general person in the street. We have one common goal which is our football club, Oxford United. A football club brings a sense of togetherness/belonging, almost like a religion of all people from differing backgrounds, the young to the more senior supporters and from different cultures. The football club creates a community, and can play a vital part within that community by supporting local charities, hospitals, schools, football clubs and businesses to name but a few.

As you know, Oxford United have to vacate their current home (even though it's never felt like a home, more like a tenant in a cold house with no amenities) in 2026, with extremely poor transport infrastructure, thus a very high percentage of fans having to use their own vehicles to get there.

We as a collective county have the opportunity to build a world renowned stadium that we can truly call our home, be proud of, a hub that the wider community can utilise, with an excellent public transportation infrastructure, employment, continued integration with the local sports teams, charities, hospitals, schools and businesses etc.

I get down on my knees and hope you make the right decision in granting Oxford United the permission of building this new state of the art stadium, so that the younger generation and wider community can enjoy, take part and experience the wonderful journey that me and many many others have experienced for many many years to come.

PLEASE DO NOT THROW AWAY THIS OPPORTUNITY FOR THE MAJORITY FOR THE SAKE OF THE FEW
