I am in full support of the application for the building of a stadium at The Triangle for Oxford United Football club. The support is long overdue from Oxfordshire County Council for the land, to build a stadium on, for the only fully professional football team in Oxfordshire. Without this stadium Oxford United could and possibly will not survive. There will always be a case of not in my back yard but the new stadium has to go somewhere and as this land has been decided by the powers that be - please support this application.

With the support from fans that travelled to recent Wembley finals shows that the county of Oxfordshire want and deserve this football team and a ground that we can call home. The Kassam Stadium has never been a home, more like a Travel Lodge stay.

The stadium and the football team brings families and friends together now and will in the future.

The extensive work that has gone in by the Oxford Utd stadium project team has been phenomenal, they have tried to be sensitive to everyones needs and requirements. The stadium looks awesome on paper - now we need the support to put it in to action and complete this amazing project.

Please give it your full support.

Thank you.
