It's so incredibly important for the planning of Oxford United new football ground to continue a long lasting legacy of the club.

The history of the club, what it represents, its commitment the local communities it supports and what it means to the county. Plus the people who rely on it's existence as a focus point in their lives deserve a permanent place which they can all their own.

For too long the club has had to endure a temporary place (the Kassam) and a landlord that doesn't have the interest of the club. Oxford United have the backing to secure and quarantee the longterm progress of this great community establishment. Build something that Oxford and Oxfordshire can be proud of.

Cities and communities are built on the success of winning football teams/clubs. It's the desire of the owners, team and fans to make this happen for Oxford - granting plans and the support of the new ground is a step forward for everyone. Don't let this great club and community die because of a lack of vision for the future or what riches - financially and emotionally - it can create for future generations. This is a turning point for Oxfordshire and Oxford United.
