Do the council realise the effect of possible 15000+ fans going to the match, where will they park? Due to the cost of rail tickets groups of fans will use cars and create havoc on every match day. How are Sainsbury's going to cope with gangs of supporters invading the store and car park. How come Oxford City Council have a say in what happens to land in Cherwell?. Why cannot the existing stadium be developed and sequestrate the land from Kassam?. No guaranteed footbridge from train side, how many tons of concrete and co2 created by the build?. The Hotel will be in competition with the brand new underused hotels at the airport 5 mins away. Whole scheme will go through due to the works already done on the roundabout, a ridiculous idea which will be a white elephant that will be changed to a housing development which is what was going to happen from the start.
