Comments	To whom this may concern, I feel the application for new statuim , is a must for the good of the future of oxford united future, but the future of young boys, girls , the future of football in general terms, also I feel this is opportunity for jobs for the local , community, the infrastructure for where the stadium is too be build , is so well suited as there is the train station, the road is well suited A34c, m40 links , also very good bus links will be made available because of the park ride , near by , the parking will be kept to minimise disruption to kidlington residents, also the stadium will benefit, not just football , but conference, meetings , young , older generation will all benefit, and I believe the England women's team , would be able to play at the stadium could be state of the art that the whole of Oxfordshire, can truly be proud of , so I speak from every oxford united fan , we would urge the council to pass this , through for the future of the future of the united future, and generation ahead , many thanks in hope ,Tony crook
