Building this stadium not only secures the future of Oxford United. It secures the future of professional sport in Oxfordshire.

This club means so much to me and a lot of the supporters, it's more than just a football club. My sister met her husband as games, I've made some life long friends though the club.

At the darkest points in my life when I honestly felt I didn't have anything to keep going for, Oxford United and family around it kept me going.

Oxford United are currently stuck paying over 1.5 million a year to play in a 20 year old stadium that isn't fit for purpose. The owner won't sell, the club makes no money from the match days. The new stadium is key to the successful future of this football club.
