Oxford United are a pillar in the community, giving leisure time for so many residents from not just Oxford and Oxfordshire but people all over the country.

Their games bring revenues to lots of businesses on match days.

The new stadium will encourage more people and more revenues on non match days.

They employ many local people who also spend locally and are good for the local economy.

The club need the stadium as its no longer possible to continue and the present Kassam

Stadium.

If they new ground don't get build then it will leave the club without a home, meaning either playing in other towns or having to fold, this would be a disaster for those of us who love the club, I've been a supporter for over 40 years.

Please grant planning permission and don't allow the football club to die.
