Objection neighbour

The proposed stadium would inflictdamage to the quality of life for most Kidlington residents. It is expected to create huge traffic disruption, residents will have to be protected by parking restrictions (presumably at public expense) the football club's transport policy is a farce (they claimed 90% of supporters would travel by public transport) and the building itself will be massively out of keeping with its green belt surroundings. It's the wrong building in the wrong place.

Further to that, the club has failed to demonstrate thatit has no alternatives available and just wants to bulldoze its plan throughwithout a care for the local population, who are, of course, represented by Cherwell District Council, who we look to defend our interests. Please refuse permission.
