1. The proposed stadium safeguards the future of Oxfordshire's only professional football club, facilitates its further development and forms the basis of a wonderful opportunity to grow it's charitable outreach activities.
2. The site chosen is a largely inaccessible piece of land surrounded by major roads with little amenity or other value. It is ideally placed for access by public transport and is not immediately adjacent to a residential area.
3. The successful operation of stadia and other events venues around the country supports the case made in the application that the location is suitable for the planned development and use of the site.
4. On a personal level, three generations of my family attend matches and we will be able to travel to matches by train via Oxford Parkway Station rather than by car, which is currently not the case.
