I full support this planning application to build a stadium the county of Oxfordshire can be proud of, built with strong green credentials & with the local community in mind.

Much is being made of the potential negative impact of this development by the nay-sayers and the NIMBYs. And of course they have a right to object & it's understandable many will not be able to look past their own narrow interests to appreciate the wider benefits this development will bring to the area, which will far outweigh the negatives.

So I'm delighted to see the negative viewpoints are far outweighed by the positive support for this wonderful, sustainable community asset being built for the good not just of the football club & its fans, but for the city and county as a whole, bringing investment and opportunity for Kidlington & North Oxford also.

Councillors - please support this positive more for our great city & county.
