I am massively in favour of the new stadium to be free from the burden of the existing stadium. To be able to get a bus easily on existing transport routes. A proper home for the football club where men, women and youth teams can all use. A hub for the community so more of the outreach work can have a proper base.

It would be great to have a green stadium that's the envy of much of the rest of country.

Football means so much to so many, it's not just a game, it's a chance for people to come together.

Please grant permission and save the football club let's build something we can all be proud of
