Objection

neighbour

I object to this planning application as it will impact on already a shrinking green belt, loosing more of a healthy gap between Oxford City and Kidlington.

Building an unnecessary stadium where the current Kassam venue could be utilised saving the need for impacting a huge inconvenience on the residents of Kidlington by way of construction traffic, noise pollution whilst in operation, traffic impact for locals; diversions, potential road closures, parking issues in the local village or introduction of payable resident parking schemes (why should I pay for someone else's business impact - that is not right!). I am sure traffic jams will be a thing of the future if allowed to go ahead, the Oxford-Banbury Road is a main commuter route into Oxford and direct route to the Hospitals, the limited employment benefits of a Stadium, and Hotel Complex do not out-way the whole venture inconvenience / impact. The Traingle is the wrong place for a new Stadium Complex placement.
