Support

neighbour

I am a long term supporter of Oxford United. I was born in Witney i n 1941 which makes me a very old supporter and I have supported Oxford since I was a teenager and even though I now live in Australia I continue to take a keen interest in the fortunes of the club. OUFC fortunes have been a struggle over the last 25 years and sadly that struggle has come to a critical point and without the move to a new ground the club may well cease to exist. There is simply no viable option for a continuation of their tenure at the Kassam stadium and without a home the club will cease to exist. The benefits offered by the development at the Triangle to the Oxfordshire community as a whole seem immense and rejection will seem such a loss in so many areas. I understand and support the concept of the green belt but surely development of the triangle can only be seen as a benefit to so many constituents that such a small compromise on the green belt principle can be accepted. Heres hoping that I may see Oxford United playing at their new home in one of my future trips home though age may eventually preclude this. Come on you yellows
