<b>Comments</b>	<input type="text" value="I support these proposals as not only is this the only viable site for OUFC to build a home, it would also be the best site if others were available (bar Stratfield Brake). It is right next to the train station so will be far more eco friendly than other sites in Oxfordshire, preventing the need for people to drive. It is too far from housing to cause disturbances to residents. The land the site is currently on is also not going to be largely inhabited by animals, with major roads either side of it."/>
