Support neighbour

I have been a supporter of Oxford united for a little over 12 years now and being from outside the Oxfordshire area just it is one of my favourite places to visit and the surrounding areas of Oxford itself I think the football club is an integral part of the county's appeal, community and splendor. Football brings people together and community together. Having a modern eco friendly stadium for the club will improve that and the draw to supporters such myself to visit the county more often and benefit the economy of the new site and area on which it's proposed. With careful management of traffic systems and supporters transport and parking it will be a sustainable asset to Oxfordshire now and into the future
