Support

neighbour

I strongly support this application. The proposed stadium complex will provide a state of the art facility that is designed with eco-friendliness and sustainability as the key principles. Oxford United, which plays a significantly important part in many people's lives and has been at various periods in its history a great source of civic pride needs this to be approved to have a long term future.

If the football club were to cease to exist so too would "Oxford United in the Community" which does invaluable work covering health and well-being etc.

The hotel, restaurant and conference centre will provide many employment opportunities. As a Bicester resident I will be able to leave my car at home when going to support the team I've been watching since the 1960s with a choice of train or S5 bus. In all those years I've met so many people and formed friendships which otherwise would not have happened. A football club run the right way in the right surroundings can be such a positive influence for an area.

This is a golden opportunity. Please let it happen.
