Objection

neighbour

OBJECTION. I'm particularly concerned about the huge effect on traffic and parking in the area. Whaterever the football club may say, or wish supprters to do, many will ignore requests and take over the streets for parking. How will OUFC control the behaviour of away team supporters who will have no local connection? Cromwell Way already has problems caused by cars blocking the road on school days: will we have to suffer the same at weekends and when there are evening games? Any restrictions put in place to control vehicles on match days will also affect the local residents and their visitors. If Cherwell intends to issue residents with parking permits, will they cost money and will OUFC pay for them?

The plans include a hotel and 'community facilities'. How will vehicles for these be controlled? Has anyone actually stated what the local residents can gain whilst losing the green space? It all looks like it's for the benefit of Oxford and football supporters.
