For the attention of: The Duty Planner

Planning Application 24/00539F- OUFC Stadium - Confusion over Validated terminology

I would be grateful if you would provide a clear explanation of the term, "Validated" on this application, as media outlets and others are using this technical term of acceptance of necessary documents as an agreement to the application.

I would suggest that the term "Validated" is fully explained on your planning portal to avoid confusion and misuse by some interested parties, whereby the Committee's neutrality may be questioned after decisions.
