A new stadium feels like an excellent opportunity for Oxfordshire. As the only professional sporting club in the County, this stadium should be a focal point for the entire community and an opportunity to grow sports participation in general. It's vitally important the club and the stadium are linked in a way that benefits both the club itself and the wider population. I only lived in Oxford for 3 years, but the club is the reason that I and my family still return on a regular basis to Oxfordshire. Being able to get public transport to the ground would be a big attraction and this design supports that. I look forward to the Council approving the application, the stadium being built and taking my children to a few games.
