Comments	What an opportunity to create a fantastic events space to be used by all of Oxfordshire. With the plans very heavily focused on sustainability and modern energy saving construction methods, it's clear the team behind this know what they are doing. It's clear they have done their homework on any potential disruption or 'negative' influences a stadium could bring and have put in place solutions to mitigate these.	
	The added community benefit this stadium will bring cannot be overlooked. With a city as great as Oxford not having enough to do, poor traffic plans set in motion by councils and an urge to drive out occupants and tourism, this stadium will do nothing but bring Oxford back on level with other cities across the country for places to visit.	
	I fully support this application and urge the council to focus on the larger community benefit it will bring to thousands rather than selfish few who object for their own personal gain.
