Objection

neighbour

I object to a football stadium in Kidlington because it would be situated on an area which is rich in biodiversity and therefore vital for carbon capture for Kidlington. Where there are now trees that absorb the rain there would be concrete, and this water would be moved elsewhere causing flooding to local houses.

With houses planned for North Oxford golf course and next to Stratfield Brake, the volume of traffic would be greatly increased and journey times for buses into Oxford much longer. Closing the road on match days should not even be an option; what would happen to emergency vehicles?

With football matches comes hooliganism and littering, both of which I have experienced at Kidlington Football Club on Yarnton Road. I have had the victim of a stabbing in my back garden from the football club, and I don't want this increased crime and littering that is associated with football in Kidlington.
