As a resident of a village in north Oxfordshire on the edge of the Cherwell District Zone in question here, I am wholly in favour of the proposal for the stadium. I am not worried about traffic on my route to Oxford as this will be on a small number of days and well managed, if at all. As far as I see currently the triangle site due to its location (surrounded by roads) offers little value for wildlife or housing and the benefits of providing a home for an historic football Club for the whole county far out way any negatives. The location is well connected by road, bus and rail to the whole county and beyond. I couldn't think of a better place! As a business owner in Cherwell District (Banbury) I believe the conference facilities etc will bring new opportunities and facilities for our community and I am pleased that it will be such a sustainable and green stadium. I look forward to enjoying match days in a global sport in a new stadium fit for the future!
