I have been following Oxford United since 1968 - home & away. The club is a part of my life. I took my son to his first game at the age of 5 in 1996.

The Firoz Kassam episode has not been kind to the club & followed on from the Maxwell

The Kassam Stadium has never felt like home & we have done well to play at League 1 level, whilst dealing with the trials & tribulations that being tenants of Mr Kassam brings. We are now clearly at a crossroads in regard to our mere existence.

The Triangle is absolutely vital, in us being able to maintain our professional status & will enable us to prosper.

This is not just about football though - Oxford/Oxfordhire does need an envied sporting/social venue, which can offer so much to the local population. Sadly atm, the University does hold sway over the area facilities, which is a shame in the town v gown debate.

There would be so much potential for other uses to benefit all.

I do not live local to the triangle & do appreciate local people's resistance because it's on their doiorstep, but in time I think even they will appreciate the benefits. The Club have certainly considered that in the traffic calming measures, in their submission.

I appreciate this a complex situation & needs careful consideration, but would like to think the pros for the wider population of the town & county outweigh the cons.

Please vote favourably on the Triangle application.
