Comments	<p>My previous objection still stands along with this further objection.</p> <p>The proposed surgery won't end up being a surgery at all. Even the revised plans keep calling it a community building.</p> <p>Where suddenly is the NHS/BOB/ICB going to get the funds to rent this building? Have they even agreed to pay the rent on this building when they previously said they had no money.</p> <p>Whilst the surgery say they would be delighted to move into this building they are refraining on commenting on the rest of the development. I'd be delighted if someone offered to build me a million pound building to live in.</p> <p>Whilst the proposed building may not be to everyone taste, regardless of what the building looks like it should for all of the previously outlined reasons and objections not go ahead.</p> <p>Obsidian appear to have been given months and months to come up with a new plan whilst as a community we have been given very little time to object with some people only just receiving letters.</p>
