| Type of Comment | <input type="text" value="Objection"/> |
| Type | <input type="text" value="neighbour"/> |
| Comments | <input type="text" value="I previously objected to the application to build 60 new homes on 03/05/23 and after seeing the recent submission of the surgery design this is still the case. The images and the proposed site for the new doctors surgery aren't in keeping with the surrounding area. The bright white and illuminated surgery would be right next to the existing houses. The Developer has been allowed more time to amend / support their application without consultation with the residents. The recent submission of the new doctors surgery doesn't allow residents much time before the target decision date of 09/12/23 to submit their comments. Especially considering the months of extra time the developers have been given to keep amending and submitting additional information to support their application."/> |
