<b>Comments</b>	<input type="text" value="There are already numerous warehouse logistics buildings encircling Bicester and the surrounding area. The B4100 and Baynards Green roundabout are already hugely congested and cannot take anymore vehicles or lorries. Not to mention the loss of natural habitat within the area. This is absolutely the wrong place for this type of construction and not already on a very congested route for both work and leisure. Are you trying to turn Bicester and surrounding area into a concrete warehouse with no enjoyable places to go? Keep warehousing together in one area not potted around different hugely needed fields and safe wildlife corridors for our already depleted wildlife. I thought we were working towards a better future for the country. There are warehouses already off the M40 near Banbury, literally a 15 minute drive away on the M40, put these there or utilise those warehouses that are already there if not already filled. This area already has the infrastructure and is directly off the M40."/>
