Comments	<input type="text" value="1. Why is the netting being proposed is go all the way around the course? Surely it is only needed along the top edges of the driving range.
2. Regarding the 10m height, in other courses the netting is tapered in height, starting at a lower height then proceeding up to 10m. This could be beneficial from an aesthetic point of view, whilst achieving the same outcome.
3. Fencing is it going to be colour bending to the landscape"/>
